Andvaris is a premium staffing agency that provides top talent to companies of all sizes and scales in various industries to help them embrace the change for success.

After subscribing to Kyloe DataTools (our data management product for Bullhorn), Andvaris were impressed with our way of working. When they wanted to implement Bullhorn Automation, Kyloe were their first choice.

Key objectives

Andvaris were looking to reduce the repetitive tasks that were taking up too much time. After they saw what Bullhorn Automation could do, they made a quick decision to add it on to their Bullhorn system and contacted Kyloe to help with the implementation.

The Kyloe solution

Kyloe's Bullhorn Automation Essentials implementation package contains everything needed to get you up and running with Bullhorn Automation for the future success of your business.

Our experts have the in-depth working knowledge needed to ensure you get off to the best start and your detailed training and workshop program will ensure you are able to create and implement all of your own automations.

"The Bullhorn Automation implementation with Kyloe was awesome. During the project we realised through talking with Kyloe we'd be able to do far more with the product than initially anticipated!

We now have a lot more time to focus on sourcing and building rapport with candidates and our placement rate increased by 20%."

Zedrick Gilo, CEO, Andvaris
