

Kyloe AwesomeDocs - Document management

While migrating to Bullhorn with Kyloe, Talent International was looking to move from an external e-signing solution to integrate all document creation, signing and managing processes into Bullhorn.

Kyloe AwesomeDocs, our complete end-to-end document automation system for Bullhorn, stood out due to its ability to generate branded files in a few clicks, ensure accuracy, improve visibility and accelerate signing speed.

"Kyloe AwesomeDocs integrates seamlessly into our Bullhorn system and deals with the entire workflow, from generating contracts and agreements to sending them for signature using Kyloe's DocuSign integration.

With Kyloe AwesomeDocs, we don't need to chase candidates for signature or constantly check to make sure we have the signed files; Kyloe AwesomeDocs makes it easier for people to sign wherever they are, automatically saves the signed documents back to Bullhorn, and also updates the statuses in Bullhorn!"

Generate contracts and send for signing, all without leaving Bullhorn

Kyloe originally partnered with Talent International to migrate from JobScience to Bullhorn and to ensure they were set up properly and getting the most out of their new CRM. While implementing Bullhorn, Kyloe also helped them automate and integrate their contract generation processes seamlessly with Kyloe AwesomeDocs: our document automation system used to generate 9+ documents every minute worldwide.

Talent International challenges

- Wasting time and duplicating efforts by externally and manually creating contracts and agreements.
- Disjointed candidate and client experience due to sending contracts and onboarding documents separately, increasing time-to-hire and losing revenue.
- Incorrect information being included in documents from manually inputting data.

Talent International objectives

- Automatically populate contracts and agreements using information contained in Bullhorn to ensure accuracy, reduce manual efforts and submit candidates faster.
- Seamlessly integrate a solution into Bullhorn to streamline document generation processes, increase collaboration.
- Reduce compliance risks and accelerate signing speed by having the ability to preview, edit and send documents for e-signing via Kyloe AwesomeDocs DocuSign integration.

Why Kyloe AwesomeDocs?

From CVs to contracts, and terms of business to non-disclosure agreements, Kyloe AwesomeDocs is the end-to-end document automation system designed with recruitment in mind and has been used to generate over 4.4 million documents by our clients.

Benefits

Fill more placements and business

Reduction of manual effort means quicker submission of candidates, beating out competitors and impressing clients with quality talent.

Improve client and candidate experience

Professionally branded and accurate documents that present a consistent and reliable experience that people want to interact with. Plus, recruiters have more time to spend building relationships with clients and candidates.

Reduce compliance risk

Improve document accuracy (like contracts and terms of businesses), and reduce the risk of incorrectly placing unqualified candidates.

Cut operating costs

Employees spend less time preparing, sending, chasing, and saving documents, and user-based e-signature subscriptions are eliminated.
