

Best in Class

Best in Class Recruitment uses Kyloe Connect to unify a messy, multi-tool compliance process into one professional, mobile-first app - ensuring every education candidate is fully cleared, audit-ready, and office-visit ready in minutes instead of hours.

"Kyloe Connect elevates your business to look more professional, absolutely saves a lot of time - which is money - and provides reassuring compliance where every file meets the same high requirements."

Sophie Woodcock | Director at Best in Class

Company profile

Established: **2021** Region: **UK** Industry: **Education** Employees: **10**

Background

Best in Class is an education-focused recruitment business operating in a highly compliance-heavy sector where every candidate must be fully cleared before they can work. They use Bullhorn for credentials and turned to Kyloe Connect to bring scattered compliance workflows into a single, structured candidate journey.

The challenge

- **Scattered, unprofessional tools**

Compliance lived "all over the shop": emails with Google Forms links, Bullhorn for credentials only - messy, hard to track, and unprofessional-looking. They needed to learn "four or five different things" instead of one platform.

- **No visibility into progress**

Candidates started but fell off; staff couldn't easily see percentage of completion or step in if the compliance officer was absent.

- **Manual office hand-holding**

Visits required full form-filling from scratch; older/IT-averse candidates struggled, adding time and frustration without clear error prompts.

"Kyloe Connect ensures every file is the same and meets our requirements and candidates are getting cleared quicker. The Kyloe Connect app is also providing a better experience for each and every candidate."

Sophie Woodcock | Director at Best in Class

The solution: Kyloe Connect for Bullhorn

Best in Class designed bespoke packages in Kyloe Connect, the single app every candidate uses for compliance - 90% via phone. It enforces steps ("compliant by design"): no advancing without required docs/certificates, with manager dashboard showing percentage complete for quick triage. Go-live was instant after setup/testing, integrating seamlessly with Bullhorn for a professional, streamlined flow.

Stay compliant while boosting candidate experience

Before Kyloe Connect	With Kyloe Connect
Manual emails + Google Forms + Bullhorn	Single app, bespoke onboarding solution
No % progress view; hard to cover staff	Visible completion % for any staff
Required manual intervention	Online onboarding via app + ID verify only
"Sloppy" & inconsistent	Professional, enforced, audit-reassuring

See Kyloe Connect in action

Kyloe Connect turns compliance chaos into a candidate self-service app that auto-enforces education-sector standards and feeds Bullhorn - scaling placements without extra admin.
