Bullhorn implementation | Making the complex feel simple for Devonshire

RDB data migration with Automation & Analytics

RSM InTime integration

Expert training & post go-live support

As part of the Paragon Works Group, Devonshire partners with global organisations of all sizes to recruit top talent in the Creative, Presentations, Marketing, Digital and Content sectors.

Devonshire needed a more scalable CRM platform to streamline recruitment processes, improve reporting and analytics, and make better use of automation to save time for their consultants. By moving to Bullhorn and partnering with Kyloe, they set out to make a complex system easier for their teams to use day to day.

"The goal was to make a fairly complex system feel manageable for our team and ensure we could get the most value from Bullhorn. Kyloe's expertise and structured approach made them the obvious partner to help us achieve this"

How did Kyloe help you?

"Kyloe guided us every step of the way. From the initial planning and implementation to hands-on training and ongoing support, they made the entire process straightforward and simple. Their team patiently walked us through Bullhorn, Analytics, and Automation, tailored the guidance to our business, and provided recordings and follow-ups to reinforce the learning."

How did the project go?

"The project went extremely smoothly. Despite the complexity of learning everything in tandem with each other, Kyloe's structured approach and clear communication made everything straightforward. They were flexible with our schedules, understanding when meetings needed to be moved, and always supportive in helping us overcome challenges."

"Their approach has made what could have been a daunting project both manageable and enjoyable. The experience has been positive from start to finish, and the Kyloe team is knowledgeable, patient, and genuinely supportive.

We would not hesitate to work with Kyloe again in the future."

How has this impacted your business?

"The impact has been significant. Our team now feel much more confident using Bullhorn. We are working to streamline workflows, save time, and make better data-driven decisions now that we are fully live with Bullhorn Analytics and Automation. Overall, it's given us more confidence in the system and its ability to support our growth."

Describe Kyloe in three words...

"Professional, supportive, and knowledgeable."
